

At Home or office, Mac or PC, big job or small, we are at your service. Of course, we love computers. They enrich lifestyles, improve communications, streamline our businesses and even save people from certain death. But the computer is probably the most arcane and least intuitive device in our lives.

We want to be that one trusted face in your neighborhood to help make everything work. We are your superheroes, your ultimate IT department.

We made a very conscious decision to focus on quality - not price. It is more rewarding to do excellent work and charge a fair price for it, rather than cut corners and try to be the cheapest.

LADY GEEK'S mission is to provide reliable and affordable Information Systems Technology (IT) services for your home or business.

We have over 20 years of experience in Information Systems Technology

and

Computer Repairs, Web Design, Graphic Design.

## PC Repair

Having your computer repaired isn't fun. We realize that you just want to get on with your work, your life—even your next video game level.

### Diagnostic and Repair

Get to the bottom of the problems plaguing your computer with this diagnostic service. After testing all of the software and hardware on your computer, we will diagnose and explain any problems facing your PC. We will follow up with an estimate for repair and a professional system analyzer report so you can make an informed decision regarding your next step. Make sure your computer is ready for action with this diagnostic and repair service. We will uncover and solve any operating system issues, remove viruses and spyware and optimize your PC for improved performance.

## Networking

LADY GEEK can set up, maintain, troubleshoot and secure wireless networks, turning your home or office into an oasis of computing and browsing power.

### Wireless Network

Enjoy wireless freedom when you set up wireless network connectivity for your PC or Mac and computer peripherals with this advanced wireless networking service. We will set up and configure your home computer's wireless router and network connection with your ISP, enable wireless encryption, troubleshoot connectivity issues and network 2 or more computers or devices.

## Small Business

The bottom line: You have a business to run. And we are here to help. Team with LADY GEEK and you get personalized service that's tailor made to fit your business' technology needs. Talk with a Lady Geek specialist about your small business computers, networking and computer peripherals and get the feedback and advice you need for integrating them with this technology consultation service for Mac or PC. We will review your current devices and recommend integration, upgrades and purchases to enhance your small business network setup.

## Web/Graphic

Need a WEB site? Graphic designs? Let LADY GEEK design it for you. We offer a full range of web design and graphic design services to handle your project from start to finish! Unlike other Web Design companies we are also Internet Business Owners, so what is important to you is important to us. Gaining higher rankings in the search engine results, making sure our copy converts visitors into clients/customers, and developing long-term relationships with our clients, are all key elements to having a successful online presence.

Our focus is set on results. What is the sense of having a flashy site that does not increase your business?

Whether it is a new design or a redesign contact us today for a free quote.

**Hours of operation**  
Mon-Sat: 0830AM - 0700PM  
Sun: Emergencies Only

Does your computer have slow start up? Internet errors or lockups? Pop-up advertisements? Internet or Email access is a lot slower? or your PC just doesn't work.

**WE CAN FIX IT FOR YOU!!**

We offer other services as well.
